

#### 自分の殻を破れる良い体験!レベルアップできます!!

(1-2 Ryota Nakano)

I was able to learn about Australia. I also experienced the cultural barrier between us. For example when I served sushi for dinner, my buddy didn't like it.

I was very nervous, so I wasn't able to communicate well on the first day. When we started playing "Mario cart", we were able to communicate better. I could feel us growing closer and becoming good friends.

I think that the homestay was very valuable experience. It was a great time for us both to enjoy. I hope to meet him again.

## After the precious experience...

(生徒体験後記1)

妻二だからこそできた、貴重な体験でした!

I thought it was interesting to me interact with foreigners.

On September 26<sup>th</sup>, Innisfail State College students and teachers came to Japan to learn about Japanese culture. I had one boy who was doing the learn at my house.

If I did not have the opportunity for this exchange, I would not have confidence in myself. So I think the time I spent with my buddy on this exchange was so precious.

### (生徒体験後記2)

地元でできる一番楽しく学べる異文化交流!

experienced being a school buddy for the

first time, and we enjoyed the cultural exchange. Australia students do not speak Japanese, so

We communicated in English. At Junch time! spoke about many things and laughed so many times. It was difficult to communicate in English but when we spoke she understood what I said.

I was so happy. Want to be a school buddy

again.

(2-5 Ramu litsuka) It was my first time to accept a homestay. My host buddy's name is Gabrielle. When I decided to accept with her in my home, I was worried whether I could have a conversation with her in English.

Actually, when I tried to communicate with her, she couldn't understand what I said, and she also didn't eat anything at all without meat, I realize then, the difficulty of crosscultural exchanges.

But more than anything, I was glad that I was able to make memories with her. It was a very precious experience. I want to accept a homestay again.

# See you again.
